TIMOTHY'S QUEST (Children's Book Classic) Jan 01 2021

Orange Not Lemon Sep 21 2022 Times in Education

Veracity Apr 16 2022 A breathtaking near-future thriller. From the NY Times bestselling author whose books have sold more than a million copies. What if you developed a technology that made it impossible for anyone to lie? About anything. Would this save humanity from itself? Or would it tear society apart? And just how far would power players around the globe go to stop it? Elias Gibson has invented a technology that will profoundly change the essence of human behavior. But will this lead to a glorious future, or to the collapse of civilization? Before Elias can answer this question, he finds himself battling for his very survival, and racing to uncover the identities and motives of the treacherous forces arrayed against him. As he fights to stay alive, he will be stunned by one extraordinary revelation after another. But the biggest surprise is yet to come . . . Veracity is a roller-coaster ride of a thriller. One that offers meticulously researched insights into both human nature and the future of the human race. "Richards is an extraordinary writer," (Dean Koontz) who can "keep you turning the pages all night long." (Douglas Preston) "Richards is a worthy successor to Michael Crichton." Penny Plain Nov 11 2021 Penny Plain is a novel by O. Douglas (pseudonym of Anna Buchan). This is a charming and warm tale of family, friendship and romance. The story takes place in a small Scottish town, just after WWI. The heroine of the book Jean Jardine, a Scottish girl raising her younger brothers on her own, is a young woman of high moral values and kind heart. Jardine family is poor and they had their deal of hardships, but their home is a house of joy, music and love of books, honouring the only treasure they own, their father's old library. Their everyday life is suddenly shaken when a mysterious stranger asks for their hospitality.

Culture Shock Sep 09 2021 Patrick Douglas conducted hundreds of celebrity interviews for his local newspaper. These are some of the highlights.

Run Feb 26 2023 Gunrunner Burdon Lane's weekend shipment is in danger from federal agents who have infiltrated his organization and insiders bent on taking over.

A Little Girl in Old Detroit Feb 02 2021 As a baby, Jeanne Angelot was found abandoned under a tree on the outskirts of an encampment in Detroit. Though there were a number of

items packed inside her blankets, no one was able to decipher the clues and determine the infant's true identity. Jeanne is taken in by a wealthy family and has grown up to be a spirited, independent little girl.

A Little Girl in Old New York Apr 04 2021 DigiCat Publishing presents to you this special edition of "A Little Girl in Old New York" by Amanda M. Douglas. DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. The books are available in print, as well as ebooks. DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature.

Amped Nov 23 2022 "Kira Miller can temporarily boost human IQ to dizzying levels, but this transcendent intelligence brings with it a ruthless megalomania. Determined to use her discovery to propel human civilization to a higher plane, despite this side effect, Kira and ex-special forces operative David Desh recruit a small group of accomplished scientists, all of whom are safely off the grid. Or so they think . . . Soon Kira and her team are fighting for their lives against unknown but powerful adversaries. Worse still, Kira comes across evidence of savage acts that the enhanced version of Desh kept hidden, even from himself. Now both she and Desh must question everything they think they know. Can they trust each other? Can they even trust themselves? And all the while, the greatest threat of all may be coming from an entirely unexpected direction. A threat that could lead to devastation on a global scale. And time is quickly running out!" --Page 4 of cover.

Infinity Born Dec 20 2019 A breathtaking near-future thriller. The new novel by the NY Times bestselling author whose books have been downloaded over a million times. When DARPA's billion-dollar program to create Artificial Superintelligence is sabotaged, US operative Cameron Carr is tasked with finding the culprit. He's been on high-stakes missions before, but this time the stakes are nothing less than the future of humanity. Because the race to evolve a superintelligent computer is on, and power players around the world will stop at nothing to get there first. In the right hands, Artificial Superintelligence could lift humanity to towering heights. But in the wrong hands, this technology could represent the greatest threat humanity has ever seen . . . Ripped from tomorrow's headlines, Infinity Born is a roller-coaster ride of a thriller that explores the deadly perils and mind-blowing possibilities

that await the human race-including both extinction and immortality. As our phones and computers become ever smarter, Infinity Born takes an unblinking look at a technological tipping point that is just around the corner. One that will have a profound impact on the future course of human history. "Richards is a worthy successor to Michael Crichton." (SF Book.com) "Richards is a tremendous new talent" (Stephen Coonts) who can "keep you turning the pages all night long." (Douglas Preston) Near Future Science Fiction Thrillers by Douglas E. Bookbinding, and the Care of Books Mar 03 2021

A Little Girl in Old Salem Jul 07 2021 The Leveretts were at their breakfast in the large sunny room in Derby Street. It had an outlook on the garden, and beyond the garden was a lane, well used and to be a street itself in the future. Then, at quite a distance, a strip of woods on a rise of ground, that still further enhanced the prospect. The sun slanted in at the windows on one side, there was nothing to shut it out. It would go all round the house now, and seem to end where it began, in the garden. Chilian was very fond of it. He always brought his book to the table; he liked to eat slowly, to gaze out and digest one or two thoughts at his leisure, as well as the delightful breakfast set before him. He was a man of delicate tastes and much refinement, for with all the New England sturdiness, hardness one might say, there was in many families a strain of what we might term high breeding. His face, with its clear-cut features, indicated this. His hair was rather light, fine, with a few waves in it that gave it a slightly tumbled look--far from any touch of disorder. His eyes were a deep, clear blue, his complexion fair enough for a woman. His father and grandfather had lived and died in this house. He had bought out his sister's share when she married, and she had gone to Providence. He had asked the two relatives of his father--termed cousins by courtesy--to continue housekeeping. They were the last of their family and in rather straitened circumstances. Miss Elizabeth was nearing sixty, tall, straight, fair, and rather austere-looking. Eunice was two years younger, shorter, a trifle stouter, with a rounder face, and a mouth that wore a certain sweetness when it did not actually smile. Chilian was past thirty. He was a Harvard graduate, and now went in two days each week for teaching classes. His father had left some business interests in Salem, rather distasteful to him, but he was a strictly conscientious person and attended to them, if with a sort of mental protest. For the rest, he was a bookworm and revelled in intellectual pursuits.

Partnership Working Jul 27 2020 Joint working is recognised as the most effective way of improving social care and the government's aim to provide a seamless service of care. Written by an experienced director of social services, this text provides a detailed introduction to joint working.

Oracle Jan 21 2020 A breathtaking near-future thriller. From the NY Times bestselling author whose books have been downloaded over a million times. LA detective Anna Abbott has the ability to glimpse brief, cryptic visions of the future. She just doesn't know it yet. But others do. Others who realize that her erratic abilities will only grow stronger. Soon Anna is fighting for her life against an array of powerful adversaries, and not all of them are human. Because a small group of aliens hiding on Earth believe that she can singlehandedly alter the course of an interstellar war. One that has raged for thousands of years, but which is completely unknown to humankind. Until now. But even if Anna can stay alive long enough to enter the fray, the greatest threat of all awaits. A super-intelligent species determined to prevent humanity from achieving its evolutionary destiny--at any cost. ORACLE is a roller-coaster ride of a thriller. One packed with breathtaking action, startling revelations, and mind-blowing science, including a scientific rationale for clairvoyance itself. "Richards is an extraordinary writer," (Dean Koontz) who can "keep you turning the pages all night long." (Douglas Preston) "Richards is a worthy successor to Michael Crichton." (SF Book dot com) Near Future Science Fiction Thrillers by Douglas E. Richards Standalone Novels QUANTUM LENS GAME CHANGER INFINITY BORN SEEKER VERACITY ORACLE Series WIRED (Wired 1) AMPED (Wired 2) MIND'S EYE (Nick Hall 1) BRAINWEB (Nick Hall 2) MIND WAR (Nick Hall 3) SPLIT SECOND(Split Second 1) TIME FRAME (Split Second 2) Kids Science Fiction Thrillers (9 and up, enjoyed by kids and adults alike) TRAPPED (Prometheus Project 1) CAPTURED (Prometheus Project 2) STRANDED (Prometheus Project 3) OUT OF THIS WORLD DEVIL'S SWORD

National Laws and international commerce Dec 12 2021

Dirk Gently's Holistic Detective Agency May 25 2020 From Douglas Adams, the legendary author of one of the most beloved science fiction novels of all time, *The Hitchhiker's Guide to the Galaxy*, comes a wildly inventive novel—in trade paperback for the first time—of ghosts, time travel, and one detective's mission to save humanity from extinction. Quirky and bumbling private investigator Dirk Gently stumbles upon a ghost, millions of years old, wandering the earth and disturbing its people. Dirk soon discovers this phantom yearns for more than a good haunting: it is desperately trying to go back in time to prevent its own death. But this ghost was no ordinary person, and helping it save itself just might change the modern world as we know it. And not in a good way... Endlessly entertaining, *Dirk Gently's Holistic Detective Agency* proves that, indeed, "few writers have had such an infectious prose style as Adams" (*The Observer*). As Dirk Gently tries to solve the mysteries of the universe and the human soul, readers will have their own mystery to solve: Where did the time go?

The Black Douglas Jan 25 2023 The Black

Douglas is a fantasy story by S.R. Crockett. A remarkable adventure set in Medieval Scotland and France, we encounter romance, political conspiracy, gory slayings and horrifying witchcraft in this exhilarating tale.

Geology and the National Parks and Monuments Jun 25 2020

Split Second Oct 22 2022 The breathtaking new thriller from the New York Times bestselling author of WIRED, who has been called "a worthy successor to Michael Crichton." (SF Book.com) What if you found a way to send something back in time? But not millions of years back, to the age of the dinosaur. Not a day back. Not even a minute back. What if you could only send something back less than the blink of an eye? Would this be of any use? You wouldn't have nearly enough time to right a wrong, change an event, or win a lottery. Nathan Wexler is a brilliant physicist who thinks he's found a way to send matter a split second back into the past. But before he can even confirm his findings, he and his wife-to-be, Jenna Morrison, find themselves in a battle for their very lives. Because while time travel to an instant earlier seems useless, Jenna comes to learn that no capability in history has ever been more profound or far-reaching. Now, as Jenna fights to defeat the powerful forces arrayed against her, nothing less than the fate of humanity hangs in the balance. . . SPLIT SECOND is a roller coaster ride of a thriller, one that will have readers pondering the nature of time, and of reality, long after they've read the last page. "Richards is a tremendous new talent" (Stephen Coonts) who can "keep you turning the pages all night long" (Douglas Preston)

A Little Brass Book of Full Metal Fiction Feb 20 2020 The thirteenth in the first series of Little Books from Borderlands Press is *A Little Brass Book of Full Metal Fiction*. This is a collection of short stories about guns. The author is the editor of two bestselling anthologies, *Prime Evil* and *Revelations*, and the author of the novel, *Run*. He is a World Fantasy award winner. Included in this collection: "one more red nightmare" "black coffee" "history is of ages past" "murder" "blessed assurance" "going south" "nothing at all"

Tante Mar 15 2022

Autobiography of Stephen A. Douglas May 17 2022 Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary,

rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates.

Computer Networks and Internets Apr 23 2020

If you really want to understand how the Internet and other computer networks operate, start with *Computer Networks and Internets*, Third Edition. Douglas E. Comer, who helped build the Internet, presents an up-to-the-minute tour of the Internet and internetworking, from low-level data transmission wiring all the way up to Web services and Internet application software. The new edition contains extensive coverage of network programming, plus authoritative introductions to many new Internet protocols and technologies, from CIDR addressing to Network Address Translation (NAT). Comer explains every networking layer, showing how facilities and services provided by one layer are used and extended in the next. Discover how networking hardware utilizes carrier signals, modulation and encoding; why internets use packet switching; how LANs, local loops, WANs, public and private networks work; and how protocols like TCP support internetworking. Understand the client/server model at the heart of most network applications, and master key Internet technologies such as CGI, DNS, E-mail, ADSL, and cable modems. This new edition includes a complete new chapter on static and automatic Internet routing, introducing key concepts such as Autonomous Systems and hop metrics; as well as detailed coverage of label switching and virtual circuits.

The Cloud Computing Book Mar 23 2020

This latest textbook from bestselling author, Douglas E. Comer, is a class-tested book providing a comprehensive introduction to cloud computing. Focusing on concepts and principles, rather than commercial offerings by cloud providers and vendors, *The Cloud Computing Book: The Future of Computing Explained* gives readers a complete picture of the advantages and growth of cloud computing, cloud infrastructure, virtualization, automation and orchestration, and cloud-native software design. The book explains real and virtual data center facilities, including computation (e.g., servers, hypervisors, Virtual Machines, and containers), networks (e.g., leaf-spine architecture, VLANs, and VxLAN), and storage mechanisms (e.g., SAN, NAS, and object storage). Chapters on automation and orchestration cover the conceptual organization of systems that automate software deployment and scaling. Chapters on cloud-native software cover parallelism, microservices, MapReduce, controller-based designs, and serverless computing. Although it focuses on concepts and principles, the book uses popular technologies in examples, including Docker containers and Kubernetes. Final chapters explain security in a

cloud environment and the use of models to help control the complexity involved in designing software for the cloud. The text is suitable for a one-semester course for software engineers who want to understand cloud, and for IT managers moving an organization's computing to the cloud.

Why Not Me? Aug 08 2021 This is a story about how I discovered something special inside of me, not talent, rather the capacity to turn adversity into a gift. My talent was to enjoy and thrive on suffering and longer than most. Maybe even to understand that this is even more important than anything else, for we are more likely to face many challenges over a lifetime. Jessica Douglas is a three-time World Champion mountain biker. Without a chance diagnosis of cancer at age 14, this may never have happened. According to Jess, through adversity, the succession of life lessons were 'gifts', choosing to see the opportunities in hardships and view failure as the way to unlock the secrets to success. The most significant and life-changing event occurred at a mountain bike race in 2006. Jess was 32 and decided then and there; she would reach for the stars. It was simple, to get better, all she had to do was focus on minor improvements, over time, not be awesome today, or tomorrow, or event next week. This was the 1% Rule to Success. Focus on 1 task at a time. 1 day at a time. 1 week at a time. 1 month at a time. Improve just one thing at a time by 1%. In a year's time, you will have improved. You cannot fail. Every single day, focus on the 1%'ers. The methodology meant it made the seemingly impossible - possible. No shortcuts. Consistent, persistent 1% efforts, developing her grit and determination despite questions of self-worth. Revelling in hard work and dreaming big led her to the big moment of winning on a world stage. Jess described it as 'Cracking the Code for life', using simple 1%'ers every day of her life, in the good times and the bad- through victorious wins on race day and in business and through her darkest periods of depression. It's a story that has many triumphs and many many failures, but it's real and raw, proving that anyone can have a go at anything if they only just start today

Seeker Dec 24 2022 When an interstellar probe lands in the heart of the Amazon Jungle, powerful nations around the world will stop at nothing to retrieve it. Because the unoccupied alien craft is sure to contain revolutionary technology. Technology that will allow the country that controls it to dominate the globe. With the probe hidden within the densest rainforest on Earth, traditional military power is useless. So the US chooses to send in a single operative, a man who's been enhanced to the limits of current technology. He'll be greatly outnumbered, and with so much on the line, not even the closest of allies can be trusted. m But the true stakes are higher than anyone could possibly know. Because all is not what it seems. And the alien spacecraft has plans of its own ...- Back of book.

Laugh and Live Jan 13 2022 "There is one thing in this good old world that is positively sure—happiness is for all who strive to be happy—and those who laugh are happy. Everybody is eligible—you—me—the other fellow. Happiness is fundamentally a state of mind—not a state of body. And mind controls". Douglas Elton Fairbanks Sr. was an American

actor, screenwriter, director, and producer. He was best known for his swashbuckling roles in silent films including *The Thief of Bagdad*, *Robin Hood*, and *The Mark of Zorro*, but spent the early part of his career making comedies.

A Little Girl in Old Philadelphia Sep 28 2020 Reproduction of the original: *A Little Girl in Old Philadelphia* by Amanda M. Douglas

Olivia in India Aug 20 2022 "Olivia in India" by O. Douglas. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten—or yet undiscovered gems—of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

Harrington May 05 2021

Look for Yourself Feb 14 2022 "This is an original and provocative collection of essays that clearly point the reader to the reality of his or her true existence; to who we really are. It features a direct approach to awakening to the truth of our intrinsic nature."--AbeBooks.

A Celebration of Sex for Newlyweds Jul 19 2022 A guide to enjoying God's gift of married sexual pleasure, now in trade paper. *A Celebration of Sex for Newlyweds* answers specific, often unasked questions about sexual topics, and presents newly-married couples with detailed techniques and behavioral skills for learning sexual pleasure and intimate companionship. An excellent tool for premarital counseling and a wonderful gift for the newly-married, this book offers invaluable information in a professional yet sensitive style.

Essentials of Computer Architecture Jun 06 2021 This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. *Essentials of Computer Architecture* is ideal for undergraduate courses in computer architecture and organization. Douglas Comer takes a clear, concise approach to computer architecture that readers love. By exploring the fundamental concepts from a programmer's perspective and explaining programming consequences, this unique text covers exactly the material students need to understand and construct efficient and correct programs for modern hardware.

Wired Mar 27 2023 The sensational bestseller read by over a million people and translated into six languages. Richards is "a worthy successor to Michael Crichton," (SF Book.com), who can "keep you turning the pages all night long" (Douglas Preston). Kira Miller is a brilliant genetic engineer who discovers how to temporarily achieve a transcendent level of intelligence. But this enhancement comes at a high cost. When Kira is found to be behind a bioterror plot that threatens millions, special forces operative David Desh is tasked with hunting her down. But when Desh learns that the bioterror plot is just the tip of the iceberg, he is thrust into a byzantine maze of deception and intrigue, and becomes a key player in a deadly game he can't begin to understand. One that is certain to have a dramatic impact on the course of human history. . . Richards delivers a

smart thriller crammed with breakneck action, unexpected twists, mind-expanding science, and intriguing concepts readers will be contemplating long after they've read the last page.

De-Escalate Jun 18 2022 "We live in a more socially polarized time nationally and globally than ever before, as arguments easily flare up, aggression and bullying rises, and lines are drawn over politics, religion, and ideology. *De-Escalate* provides a new set of social listening and communication skills that solve the problem of what to do with angry, emotional people. Based on the practical experience of a master mediator and grounded in the latest findings in neuroscience, Douglas Noll offers his proven process to you--to empower you to successfully and efficiently de-escalate an angry person or volatile situation in 90 seconds or less, and how to apply this skill in all areas of life. A timely and practical relationship book with simple, easy to understand steps, *De-Escalate* walks readers through real-life examples and scenario-based conversations in order to master his technique, build emotional intelligence, and cultivate empathy and healing. This book will teach the precise tools to master becoming a peacemaker, cultivating ways to transform lives, co-exist and co-respect for a more caring and compassionate future"--

Anyone You Want Me to Be Aug 28 2020 JOHN DOUGLAS -- THE BESTSELLING AUTHOR OF MINDHUNTER AND THE UNDISPUTED MASTER PROFILER OF SERIAL CRIMINALS -- TELLS THE CHILLING TRUE STORY OF JOHN ROBINSON, THE INTERNET'S FIRST SERIAL MURDERER. In Olathe, Kansas, a balding, pudgy father of four sits in prison convicted on three counts of homicide -- two of capital murder -- and suspected in at least five other disappearances. During the last half of the 1990s, John Robinson exploited the Internet's active world of sadomasochism with horrific results. By haunting chat rooms, he pinpointed vulnerable women who were looking for romance and stalked them on-line, nefariously convincing them of his maturity, sensitivity, and financial stability. He seemed like the perfect man. He enticed these women with offers of a solid relationship and a lucrative job, persuading them to move to his hometown. Once they arrived in Kansas, the women invariably disappeared. After a dramatic trial and days of intense jury deliberation, Robinson now faces the death penalty. Disturbing as his crimes may be, what's most alarming is how he selected and lured his victims and how willingly they responded. John Robinson expanded the hunting ground, the techniques, and the technology of the sexual predator. He is the world's first-known Internet serial killer. Law enforcement officers, prosecutors, and the coauthors of *Anyone You Want Me to Be* have struggled to unravel the enigma that is John Robinson. They reveal what can go wrong in a world where relationships are devoid of physical contact, showing how easily mainstream Americans can be drawn into the dark underground of cybercrime. The Internet has drastically expanded the realm of fantasy -- from the limited confines of physical reality to the worldwide stage of virtual reality -- and anyone can become involved in an on-line seduction. Erotic fantasies, which were once

socially off-limits and extremely private, are now instantly accessible. This rapidly growing community masks a sinister truth: With only a computer, an Internet connection, and a knack for creativity, criminals have the power to reach millions of unsuspecting victims while remaining in complete control of their own -- often false -- image. John Robinson was a true innovator in this variety of crime. Through interviews with law enforcement specialists, Web experts, and others, John Douglas and Stephen Singular illustrate, with this case, a much larger -- and more frightening -- pattern of Internet sex and violence. As technology proliferates in the twenty-first century, so do opportunities for enterprising criminals like John Robinson. No one is better equipped than John Douglas and Stephen Singular to expose the underworld of the Internet and to warn people about the dangers of cyberspace. A cautionary and educational tale about being wary of strangers and false intimacy, *Anyone You Want Me to Be* is also a terrifying, high-tech story of crime and punishment.

Making Life Worth While Oct 30 2020

Making Life Worth While is a self-help book written by Douglas Fairbanks, American actor and producer, known as *The First King of Hollywood*. His formula for happiness is simple: humbleness, healthy humor, and physical culture, while his basic message echoes throughout the book: energy and optimism. Nearly everything has to do with such a subject and that is what the book contains—everything in general—and nothing in particular—just such things as came to mind that seemed worthwhile.

The Internet Book Apr 28 2023 *The Internet Book*, Fifth Edition explains how computers communicate, what the Internet is, how the Internet works, and what services the Internet offers. It is designed for readers who do not have a strong technical background -- early chapters clearly explain the terminology and concepts needed to understand all the services. It helps the reader to understand the technology behind the Internet, appreciate how the Internet can be used, and discover why people find it so exciting. In addition, it explains the origins of the Internet and shows the reader how rapidly it has grown. It also provides information on how to avoid scams and exaggerated marketing claims. The first section

of the book introduces communication system concepts and terminology. The second section reviews the history of the Internet and its incredible growth. It documents the rate at which the digital revolution occurred, and provides background that will help readers appreciate the significance of the underlying design. The third section describes basic Internet technology and capabilities. It examines how Internet hardware is organized and how software provides communication. This section provides the foundation for later chapters, and will help readers ask good questions and make better decisions when salespeople offer Internet products and services. The final section describes application services currently available on the Internet. For each service, the book explains both what the service offers and how the service works. About the Author Dr. Douglas Comer is a Distinguished Professor at Purdue University in the departments of Computer Science and Electrical and Computer Engineering. He has created and enjoys teaching undergraduate and graduate courses on computer networks and Internets, operating systems, computer architecture, and computer software. One of the researchers who contributed to the Internet as it was being formed in the late 1970s and 1980s, he has served as a member of the Internet Architecture Board, the group responsible for guiding the Internet's development. Prof. Comer is an internationally recognized expert on computer networking, the TCP/IP protocols, and the Internet, who presents lectures to a wide range of audiences. In addition to research articles, he has written a series of textbooks that describe the technical details of the Internet. Prof. Comer's books have been translated into many languages, and are used in industry as well as computer science, engineering, and business departments around the world. Prof. Comer joined the Internet project in the late 1970s, and has had a high-speed Internet connection to his home since 1981. He wrote this book as a response to everyone who has asked him for an explanation of the Internet that is both technically correct and easily understood by anyone. An Internet enthusiast, Comer displays INTRNET on the license plate of his car.

South Wind Nov 30 2020 DigiCat Publishing presents to you this special edition of "South

Wind" by Norman Douglas. DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. The books are available in print, as well as ebooks. DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature.
