Kingdom of Twilight Mar 03 2021

"POWERFUL AND ORIGINAL." --THE TIMES
"REWARDING AND WHOLLY ENGAGING." --
HISTORICAL NOVEL SOCIETY "ONE OF THE MOST IMPORTANT AND POWERFUL NOVELS OF RECENT GERMAN LITERATURE." --
DEUTSCHLANDRADIO KULTUR Hypnotically lyrical and intensely moving, Steven Uhly's epic novel set in the wake of World War II is a finely nuanced yet shattering exploration of universal themes: love, hatred, doubt, survival, guilt, humanity, and redemption. One night in autumn 1944, a gunshot echoes through the alleyways of a small town in occupied Poland. An SS officer is shot dead by a young Polish Jew, Margarita Eizenstein. In retaliation, his commander orders the execution of thirty-seven Poles--one for every year of the dead man's life. First hidden by a sympathetic German couple, Margarita must then flee the brutal advance of the Soviet army with her newborn baby. So begins a thrilling panorama of intermingled destinies and events that reverberate from that single act of defiance. Kingdom of Twilight follows the lives of Jewish refugees and a German family resettled from Bukovina, as well as a former SS officer, chronicling the geographical and psychological dislocation generated by war. A quest for identity and truth takes them from refugee camps to Lübeck, Berlin, Tel Aviv, and New York, as they try to make sense of a changed world, and of their place in it.

The Contemporary Freudian Tradition Dec 12 2021 This is the first book dedicated to the Contemporary Freudian Tradition. In its introduction, and through its selection of papers, it describes the development and rich diversity of this tradition over recent decades, showing how theory and practice are inseparable in the psychoanalytic treatment of children, adolescents and adults. The book is organized around four major concerns in the Contemporary Freudian Tradition: the nature of the Unconscious and the ways that it manifests itself; the extension of Freud's theories of development through the work of Anna Freud and later theorists; the body and psychosexuality, including the centrality of bodily experience as it is elaborated over time in the life of the individual; and aggression. It also illustrates how within the Tradition different exponents have been influenced by psychoanalytic thinking outside it, whether from the Kleinian and Independent Groups, or from

French Freudian thinking. Throughout the book there is strong emphasis on the clinical setting, in, for example, the value of the Tradition's approach to the complex interrelationship of body and mind in promoting a deeper understanding of somatic symptoms and illnesses and working with them. There are four papers on the subject of dreams within the Contemporary Freudian Tradition, illustrating the continuing importance accorded to dreams and dreaming in psychoanalytic treatment. This is the only book that describes in detail the family resemblances shared by those working psychoanalytically within the richly diverse Contemporary Freudian Tradition. It should appeal to anyone, from student onwards, who is interested in the living tradition of Freud's work as understood by one of the three major groups within British psychoanalysis.

Champion of the Lark Oct 10 2021 A career engineer at Studebaker, Harold E. Churchill became president of the recently merged Studebaker-Packard Corporation in 1956, at a time when finances were shaky and an aging product line was losing ground to the Big Three. Quickly launching a program of "realism and common sense," he focused the company's energies on a few selected market segments where he saw opportunities for gain. His vision for a compact economy car led to the Lark, the hit model that Studebaker desperately needed. This thorough examination of Churchill's leadership of Studebaker-Packard draws upon Board of Directors minutes, internal documents, oral histories and media reports in constructing a detailed account of these crucial years. In addition to covering the cars and trucks produced under Churchill in detail, it closely traces Churchill's actions as president and analyzes his motivations, the pressures he faced, his leadership style and the success or failure of his tenure.

Factory 19 Aug 08 2021 We're told that the future will be brighter. But what if human happiness really lies in the past? Hobart, 2022: a city with a declining population, in the grip of a dark recession. A rusty ship sails into the harbour and begins to unload its cargo on the site of the once famous but now abandoned Gallery of Future Art, known to the world as GoFA. One day the city's residents are awoken by a high-pitched sound no one has heard for two generations: a factory whistle. GoFA's owner, world-famous billionaire Dundas Faussett, is creating his most ambitious installation yet. He's going to defeat technology's dominance over our lives by establishing a new Year Zero: 1948. Those whose jobs have been destroyed by Amazon and Uber and Airbnb are invited to fight back in the only way that can possibly succeed: by living as if the internet had never been invented. The hold of Bezos, Musk, Zuckerberg and their ilk starts to loosen as the revolutionary example of Factory 19 spreads. Can nostalgia really defeat the future? Can the little people win back the world? We are about to find out. 'Like Orwell, of whom he has written so brilliantly, Dennis Glover's work is charged with courage,

intelligence and purpose. He is the complete writer, and one made for our times.' —Don Watson 'Savagely hilarious and unlike anything else you'll read this year. It boils with the anger of the present moment.' —Rohan Wilson
