Here is a showcase of George Barris' hot rods and custom cars created during the swingin' 1960s. He is a hot-rod legend. This book picks up where the first Barris book, Barris Kustoms of the 1950s, ended. In the 1960s, Barris was becoming more involved with Hollywood movie and TV studios, but he still designed and built numerous hot rods and custom cars. Get the behind the scenes view of arguably the most iconic automotive movie car and scene in history. Ask any automotive enthusiast what his or her favorite chase scene to appear in a movie is, and the majority will respond with "Bullitt." It has made the top 5 in every list covering the best automotive chase scenes in history. But the appeal isn't just about the chase scene. Shot entirely on location in picturesque San Francisco in 1968, the movie not only features the historic chase scene but also many outdoor scenes filled with cars and architecture of the period that are filmed in crisp clear color. The movie was the fifth-highest-grossing film for 1968, it was well received by critics, and the chase scene won Franks P. Keller an Oscar for editing. In Bullitt: The Cars and People Behind Steve McQueen, you will get the complete behind the scenes picture of how all the action was coordinated and filmed. Included are the ideas behind the making of the movie, an interview with Director Peter Yates, production stills, and the planning for the scene. Also covered is the cast, the building of the cars used in the film, and the how and why the stunts were choreographed and filmed. To round out the story, an examination of what happened to the cars is included as well as coverage of the multiple Bullitt Edition cars released by Ford after the film, including the latest 2019 edition. While several books have been published about Steve McQueen, the "King of Cool," never before has there been a thorough examination of this specific film and these specific cars. This edition is a welcome addition to the library of any McQueen, Mustang, or automotive film history fan. This fully revised and updated edition is one of the most comprehensive references available to engine tuners and race engine builders. Bell covers all areas of engine operation, from air and fuel, through carburation, ignition, cylinders, camshafts and valves, exhaust systems and drive trains, to cooling and lubrication. Filled with new material on electronic fuel injection and computerised engine management systems. Every aspect of an engine's operation is explained and analyzed. The full company history, from Trevor Wilkinson's initial optimism, the near disasterous move to a wedge shape, to the present day under Peter Wheeler. Covers the development of the cars and looks in detail at the factory, the staff, the design process, the creation of the chassis and bodies, and the care that goes into the manufacture of each car. Includes full technical specs for all TVR models. Founded on the author's many years of experience in building, tuning and modifying high-performance engines, it sets out in accessible language the principles involved in forced induction, supported by tables and numerous illustrations. From basic theory through to building a rugged engine, all the important aspects of supercharging and turbocharging are explained and analyzed. An easy to follow guide to restoring a classic Mazda MX-5/Miata - the world's favourite small sports car. This book takes you step-by-step through choosing a project car, looking the car over, planning the restoration, and buying parts and tools to perform the work. The comprehensive text is fully supported by high-resolution photographs, guiding you through stripping the car down, cutting out and repairing rust, restoration of interiors, replacing the hood, refurbishing the underside of the car including the floor pan, suspension, brakes, undersealing, reassembly, replacing the cam belt and waterpump, replacing

engine seals and gaskets to cure common leaks. It also provides a guide to handy upgrades as you go along. Whether you are looking to restore to original condition or build an out-and-out track weapon, the techniques described in this book will assist you in getting the right base to start with. The book is based on an actual restoration of a vehicle carried out by the author, with before and after shots. The best-selling automotive technology book for students and professionals. From the bestselling author of Huckstepp comes a riveting new novel of intrigue and suspense When Dimitri Telegonus is promoted to the Serious Unsolved Crime Unit to investigate the disappearance of a beautiful blonde escort, he thinks he's finally made the big time. He'd always wanted to do detective work; thought it was his destiny. But things quickly start to unravel. His assigned partner is an uninterested dinosaur and when progress in the investigation is slow, the bosses threaten to pull the plug. Desperate to crack his first cold case, Dimitri tracks the prime suspect down - only to find there are forces at play a naïve young detective will never fully understand. Praise for the work of John Dale 'Superb evocation of the underbelly of Sydney' The Sydney Morning Herald 'A significant, original work that challenges as much as it reveals' The Australian 'A mightily impressive debut ... Dale's novel is incandescent' Time Out 'Great energy, dynamic storytelling. Intense entertainment' Kirkus Reviews This book focuses solely on the cars derived from the classic Mini. Small GTs, sports cars, roadsters and fun cars: Mini-derivatives that changed the specialist motoring market completely in the early sixties, and new designs kept it busy for nearly four decades. from the well known Mini Marcos and Unipower GT that raced at Le Mans, to the very obscure but as exciting Coldwell GT or Sarcon Scarab, almost 60 cars are thoroughly researched, described and photographed in this book. This offers honest and largely unedited glimpses into the world of social work of 40 years or so ago. Illustrated by the professional practice of one Colin Millwood, an enthusiastic but otherwise green social worker, it coincides with the early beginnings of his arrival at his local Social Services Department. This reference features the best models from the greatest manufacturing companies of the world, both past and present. Alphabetized entries include a short history of each manufacturer. Specific models of 600-plus cars are examined in detail and illustrated by color and bandw photos highlighting their unique qualities. The story of each classic car is complemented by performance tables that include information such as maximum speed and power, engine type, and details of transmission, chassis, suspension and brakes. Oversize: 9.5x12". Annotation copyrighted by Book News, Inc., Portland, OR As a broadcaster and motorsports legend, Neil 'Crompo' Crompton has had the best seat in the house for the last 40 years of Australian motorsport. From Allan Moffat to Jamie Whincup, Supercars to Sportscars and the Bathurst 1000 to the Indianapolis 500, Neil has had a front-row seat to see the biggest names, machines and events of this high-speed,

high-octane sport. As a kid from Ballarat in country Victoria, Neil was obsessed by speed. It was a passion that would take him to the top of motorsport and see him, at 28 years old, lining up on the grid at the Bathurst 1000, driving for a team run by his childhood hero, Peter Brock. Over more than 30 years, Neil has raced wheel-to-wheel with some of the biggest stars the sport has ever seen in this country - from the brilliance of Mark Skaife to the sheer speed of Craig Lowndes. Neil has seen and done it all: thrilling wins, heartbreaking disappointments and witnessing the tragedy of competitors and mates lost to the sport they all loved. Since 2003, as the trusted and respected modern-day voice and face of Supercars racing on television in Australia, Neil has added the audio soundtrack from the commentary box to some of the most iconic moments in the sport. Best Seat in the House is an unputdownable memoir of one of Australia's leading motor-racing and automotive industry personalities. "Shelby American automobile club"--Cover. THE first of an exciting new book series from the V8 Sleuth team, 'Bathurst: Every Car, The Photographic History, 1990-1999' is a must-have for any motorsport fan. This 256-page hardcover collector's book brings to life 'The Great Race' in the 1990s and, at its core, includes a photo of every single car to compete in the Bathurst 1000 in the 1990s across the Group A, five-litre V8, Super Touring and V8 Supercar categories. In addition to the cars that took the start on race day, this book also includes images of those cars that didn't start the race despite taking part in practice and/or qualifying. This series of books has been inspired by V8 Sleuth's sold-out books from previous years documenting every Holden and every Ford to compete in the Bathurst 1000. In addition to Holden and Ford, a variety of manufacturers take centre stage within the pages of this book focused on the 1990s. BMW, Toyota, Nissan, Audi, Volvo and many more will bring readers many amazing memories of the cars that have tackled Mount Panorama. Also included in the special publication is:-Information on each car's photo, with driver names, team names, make and model, race times, qualifying times and positions and assorted notes listed for each.-An introduction chapter for each year's race, from the 1990 Tooheys 1000 right through to the 1999 FAI 1000.-A dedicated statistical section breaking down the achievers in the Bathurst 'Great Race' from 1990 to 1999. As a special bonus, the 1999 Bob Jane T-Marts Bathurst 500 for Super Tourers is also included in the book alongside the 1000-kilometre races with images of every car from that often over-looked race. This is a unique Bathurst book that is a must-have for the collection of hardcore and casual motorsport and Bathurst 1000 fans alike. This book is the first in a new series of publications by the V8 Sleuth team that will focus on the history of the Bathurst 'Great Race' by decade and based upon the 'every car, every race' format.
