Meanwhile, Miles Vorkosigan, one of Emperor Gregor's key investigators, this time dispatches himself on a mission of inquiry, into a mystery he never anticipated his own mother. When this simple merchant expedition draws the attention of an unexpected enemy, Miles is forced to masquerade as commander of a fictional fleet of hired guns he names after the mountains near his home--the Dendarii Mercenaries. His original crew of misfits grows into a considerable force as enemies become allies, guided by the delicate political manoeuvrings Miles learned from his father. Miles' ability to think himself out of a tight spot makes him a natural - if unlikely - leader, but this adventure in deep

Lois McMaster Bujold has won a shelf full of awards—Hugos, Nebulas, and others—for both her science fiction and fantasy writing. She is one of the most respected names in the field, always delivering polished, thoughtful, and well-crafted writing. She consistently addresses great issues and problems on a human level, where they are faced by quirky, prickly, and very real characters, and her exploration of the

theory of reader-response is an important critical contribution. Yet there has been a surprising dearth of serious critical writing about her output—in part because she resists neat and easy classification by genre, politics, or subject matter. This collection of fresh essays aims to correct that situation by presenting critical insights into many aspects of her writing. Attention is given to both her Miles Vorkosigan science fiction series and her Chalion and Sharing Knife fantasy series, as well as the books that fall outside these series. A man broken in body and spirit, Cazaril

returns to the noble household he once served as page and is named secretary-tutor to the beautiful, strong-willed sister of the impetuous boy who is next in line to rule. It is an assignment Cazaril dreads, for it must ultimately lead him to the place he most fears: the royal court of Cardegoss, where the powerful enemies who once placed him in chains now occupy lofty positions. But it is more than the traitorous intrigues of villains that threaten Cazaril and the Royesse Iselle here, for a sinister curse hangs like a sword over the entire blighted House of Chalion. And only by employing the

darkest, most forbidden of magics can Cazaril hope to protect his royal charge -- an act that will mark him as a tool of the miraculous . . . and trap him in a lethal maze of demonic paradox. INTENTIONS, BAD INTEL Captain Ivan Vorpatril sometimes thinks that if not for his family, he might have no troubles at all. But he has the dubious fortune of the hyperactive Miles Vorkosigan as a cousin, which has too-often led to his getting dragged into one of Miles' schemes, with risk to life and limb—and military career—that Ivan doesn't consider entirely fair.

Although much practice has made Ivan more adept at fending off his mother's less-than-subtle reminders

that he should be getting married and continuing the Vorpatril lineage. Fortunately, his current duty is on the planet Komarr as staff officer to Admiral Desplains, far from both his cousin and his mother back on their homeworld of Barrayar. It's an easy assignment and nobody is shooting at him. What could go wrong? Plenty, it turns out, when Byerly Vorrutyer, an undercover agent for Imperial Security, shows up on his doorstep and asks him to make the acquaintance of a young woman, recently arrived on Komarr, who seems to be in danger. That Byerly is characteristically vague about the

nature of the danger, not to mention the lady's name, should have been Ivan's first clue, but Ivan is no more able to turn aside from aiding a damsel in distress than he could resist trying to rescue a kitten from a tree. It is but a short step down the road of good intentions to the tangle of Ivan's life, in trouble with the Komarran authorities, with his superiors, and with the lethal figures hunting the mysterious but lovely Tej and her exotic blue companion Rish—a tangle to test the lengths to which Ivan will go as an inspired protector. But though his predicament is complicated, at least Ivan doesn't

have to worry about hassle from family. Or so he believes . . . gets involved with several beautiful and well-connected aliens. When Enemies Become More than Friends - - THEY WIN In her first trial by fire, Cordelia Naismith captained a throwaway ship of the Betan Expeditionary Force on a mission to destroy an enemy armada. Discovering deception within deception, treachery within treachery, she was forced into a separate peace with her chief opponent, Lord Aral Vorkosigan -- he who was called "The Butcher of Komarr" -- and would consequently become an outcast on her own planet and the Lady Vorkosigan on his.

Sick of combat and betrayal, she was ready to settle down to a quiet life, interrupted only by the occasional ceremonial appearances required of the Lady Vorkosigan. But when the Emperor died, Aral became guardian of the infant heir to the imperial throne of Barrayar -- and the target of high-tech assassins in a dynastic civil war that was reminiscent of Earth's Middle Ages, but fought with up-to-the-minute biowar technology. Neither Aral nor Cordelia guessed the part that their cell-damaged unborn would play in Barrayari's bloody legacy. Two complete novels

and a short novel in one large volume: Komarr—Miles Vorkosigan is sent to Komarr, a planet that could be a garden with a thousand more years of terraforming; or an uninhabitable wasteland, if the terraforming project fails. The solar mirror vital to the project has been shattered by a ship hurtling off course, and Miles Vorkosigan has been sent to find out if it was an accident, or sabotage. Miles uncovers a plot that could exile him from Barrayar forever—and discovers an unexpected ally, one with wounds as deep and honor as beleaguered as his own. A Civil

Campaign—On Komarr, Miles met the beautiful Vor widow Ekaterin Vorsoisson, who has no intention of getting married after the heartbreak and betrayal of her first experience. But Miles has a cunning plan to change her mind. Unfortunately his clone-brother Mark and his cousin Ivan have cunning plans of their own, and the three-way collision of cunning plans threatens to undo Miles's brilliant romantic strategy. "Winterfair Gifts"—Miles and Ekaterin make elaborate preparations for their wedding. But Miles has an enemy who is plotting to turn the romantic ceremony into a

festival of death. New York Times Best-Selling Author. The Long-Awaited New Installment in the Popular and Award-Winning Vorkosigan Series. Starring the Explosively Charismatic Miles Vorkosigan. Miles Vorkosigan is back! Kibou-daini is a planet obsessed with cheating death. Barrayaran Imperial Auditor Miles Vorkosigan can hardly disapprove—he's been cheating death his whole life, on the theory that turnabout is fair play. future—attempts to expand its franchise into the Barrayaran Empire, Emperor Gregor dispatches his top troubleshooter Miles to check it out. On Kibou-daini, Miles discovers generational conflict over money and resources is heating up, even as refugees displaced in time skew the meaning of generation past repair. This volume of essays continues the establishment of Lois McMaster Bujold as an important author of contemporary science fiction and fantasy. It argues persuasively that Bujold’s corpus spans the distance between two full arcs of US feminism, and has anticipated or responded to several of its current concerns in ways that invite or even require theoretical exploration. The

fourteen essays collected here provide wide-ranging scholarly analyses of Bujold's work and worlds so far, covering not only the science fiction and fantasy series, but taking into account the wealth of ancillary material inspired by her works, such as fan fiction and role-playing games. Examining the major series through a range of perspectives, including feminist readings, queer theory, and disability studies, this volume aims to establish beyond doubt the seriousness of intent behind Bujold's various artistic projects and provide a set of rich readings of this

engaging, experimental, playful, and popular author. Collects three previously published Miles Vorkosigan stories, united by the themes of gender, reproduction, and bioethics. Readers have awarded Lois McMaster Bujold four Hugo Awards for Best Novel, a number matched only by Robert Heinlein. Her Vorkosigan series redefined space opera with its emotional depth and explorations of themes such as bias against the disabled, economic exploitation, and the role of women in society. Acclaimed science fiction scholar Edward James traces Bujold's

career, showing how Bujold emerged from fanzine culture to win devoted male and female readers despite working in genres--military SF, space opera--perceived as solely by and for males. Devoted to old-school ideas such as faith in humanity and the desire to probe and do good in the universe, Bujold simultaneously subverted genre conventions and experimented with forms that led her in bold creative directions. As James shows, her iconic hero Miles Vorkosigan--unimposing, physically impaired, self-conscious to a fault--embodied Bujold's thematic concerns. The sheer

humanity of her characters, meanwhile, gained her a legion of fans eager to provide her with feedback, expand her vision through fan fiction, and follow her into fantasy.
