Gone from the Promised Land Jan 01 2021 In this superb cultural history, John R. Hall presents a reasoned analysis of the meaning of Jonestown--why it happened and how it is tied to our history as a nation, our ideals, our practices, and the tension of modern culture. Hall deflates the myths of Jonestown by exploring how much of what transpired was unique to the group and its leader and how much can be explained by reference to wider social processes.

America Apr 28 2023 This edition can be used for the second part of a two-year American history course. The text includes a review of American history up to the Civil War.

The Secret History of America Mar 27 2023 A compilation of rare works on the untold history and destiny of America by acclaimed occult writer Manly P. Hall. Writer and scholar Manly P. Hall (1901-1990) is one of the most significant names in the study of the esoteric, symbolic, and occult. His legendary book *The Secret Teachings of All Ages* has been an underground classic since its publication in 1928. *The Secret History of America* expands on that legacy, offering a collection of Hall's works—from books and journals to transcriptions of his lectures—all relating to the hidden past and unfolding future of our nation. Hall believed that America was gifted with a unique purpose to explore and share principles of personal freedom, self-governance, and independent thought. PEN Award-winning historian, Mitch Horowitz has curated a powerful collection of Hall's most influential and insightful works that capture and explore these ideas. Never before collected in one volume, the material in *The Secret History of America* explores the rich destiny, unseen history, and hidden meaning of America.

Public Choice Analyses of American Economic History May 17 2022 This book is the third installment in a series of volumes looking at episodes in American economic history from a public choice perspective. Each chapter discusses citizens, special interests, and government officials responding to economic incentives in both markets and politics. In doing so, the book provides fresh insights into important periods of American history, from the Rhode Island's 1788 Referendum on the U.S. Constitution and the political influence of women's clubs in the United States. The volume features economic historians such as Ruth Wallis Herndon, junior public choice scholars such as Jayme Lemke and Leo Krasnozhon, and political scientists such as Michael Faber. This volume will be useful for researchers and students interested in economics, history, political science, economic history, public choice, and political economy.

Handbook for Research in American History Oct 10 2021 When the *Handbook for Research in American History* was first published, reviewers called it "an excellent tool for historians of all interests and levels of experience . . . simple to use, and concisely worded" (*Western Historical Quarterly*) and "an excellent work that fulfills its title in being portable yet well-filled" (*Reference Reviews*). The *Journal of American History* added, "It is not easy to produce a reference work that is utilitarian and enriching and does not duplicate existing works. Professor Prucha has done the job very well." This second, revised edition takes account of the revolution that is occurring in bibliographic science as printed reference works extend to electronic databases, CD-ROMs, and online networks such as the Internet. Focusing on and expanding the major section of the original *Handbook*, it provides information on traditional printed works, describes new guides and updated versions of old ones, notes the availability of reference works and of some full-text sources in electronic form, and discusses the usefulness to researchers of different kinds of material and the forms in which they are available. Extensive cross-referencing and a detailed index that includes authors, subjects, and titles enhance the book's usefulness.

The Magic Mirror Feb 26 2023 Chronicling American law from its English origins to the

present, and offering for the first time comprehensive treatment of twentieth-century developments, this book sets American law and legal institutions in the broad context of social, economic, and political events, weaving together themes from the history of both constitutional and private law. The *Magic Mirror* treats law in society, and the legal implications of social change in areas such as criminal justice, the rights of women, blacks, the family, and children. It further examines regional differences in American legal culture, the creation of the administrative and security states, the development of American federalism, and the rise of the legal profession. Hall pays close attention to the evolution of substantive law categories--such as contracts, torts, negotiable instruments, real property, trusts and estates, and civil procedure--and addresses the intellectual evolution of American law, surveying movements such as legal realism and critical legal studies. Hall concludes that over its history American law has been remarkably fluid, adapting in form and substance to each successive generation without ever fully resolving the underlying social and economic conflicts that first provoke demands for legal change.

Did America Have a Christian Founding? Oct 30 2020 A distinguished professor debunks the assertion that America's Founders were deists who desired the strict separation of church and state and instead shows that their political ideas were profoundly influenced by their Christian convictions. In 2010, David Mark Hall gave a lecture at the Heritage Foundation entitled "Did America Have a Christian Founding?" His balanced and thoughtful approach to this controversial question caused a sensation. C-SPAN televised his talk, and an essay based on it has been downloaded more than 300,000 times. In this book, Hall expands upon this essay, making the airtight case that America's Founders were not deists. He explains why and how the Founders' views are absolutely relevant today, showing that they did not create a "godless" Constitution; that even Jefferson and Madison did not want a high wall separating church and state; that most Founders believed the government should encourage Christianity; and that they embraced a robust understanding of religious liberty for biblical and theological reasons. This compelling and utterly persuasive book will convince skeptics and equip believers and conservatives to defend the idea that Christian thought was crucial to the nation's founding--and that this benefits all of us, whatever our faith (or lack of faith).

Prentice Hall Guide to the Essentials of American History Jan 25 2023

Faithful Account of the Race Oct 22 2022 The civil rights and black power movements expanded popular awareness of the history and culture of African Americans. But, as Stephen Hall observes, African American authors, intellectuals, ministers, and abolitionists had been writing the history of the black experience since the 1800s. With this book, Hall recaptures and reconstructs a rich but largely overlooked tradition of historical writing by African Americans. Hall charts the origins, meanings, methods, evolution, and maturation of African American historical writing from the period of the Early Republic to the twentieth-century professionalization of the larger field of historical study. He demonstrates how these works borrowed from and engaged with ideological and intellectual constructs from mainstream intellectual movements including the Enlightenment, Romanticism, Realism, and Modernism. Hall also explores the creation of discursive spaces that simultaneously reinforced and offered counter narratives to more mainstream historical discourse. He sheds fresh light on the influence of the African diaspora on the development of historical study. In so doing, he provides a holistic portrait of African American history informed by developments within and outside the African American community.

[A History of the Book in America, 5-volume Omnibus E-book](#) Jun 18 2022 The five volumes in *A History of the Book in America* offer a sweeping chronicle of our country's print production and culture from colonial times to the end of the twentieth century. This interdisciplinary, collaborative work of scholarship examines the book trades as they have developed and spread

throughout the United States; provides a history of U.S. literary cultures; investigates the practice of reading and, more broadly, the uses of literacy; and links literary culture with larger themes in American history. Now available for the first time, this complete Omnibus ebook contains all 5 volumes of this landmark work. Volume 1 *The Colonial Book in the Atlantic World* Edited by Hugh Amory and David D. Hall 664 pp., 51 illus. Volume 2 *An Extensive Republic: Print, Culture, and Society in the New Nation, 1790-1840* Edited by Robert A. Gross and Mary Kelley 712 pp., 66 illus. Volume 3 *The Industrial Book, 1840-1880* Edited by Scott E. Casper, Jeffrey D. Groves, Stephen W. Nissenbaum, and Michael Winship 560 pp., 43 illus. Volume 4 *Print in Motion: The Expansion of Publishing and Reading in the United States, 1880-1940* Edited by Carl F. Kaestle and Janice A. Radway 688 pp., 74 illus. Volume 5 *The Enduring Book: Print Culture in Postwar America* Edited by David Paul Nord, Joan Shelley Rubin, and Michael Schudson 632 pp., 95 illus.

[The South in American History](#) Sep 09 2021

The Organization of American Culture, 1700-1900 Aug 20 2022 Nationality, argues Peter Hall, did not follow directly from the colonists' declaration of independence from England, nor from the political union of the states under the Constitution of 1789. It was, rather, the product of organizations which socialized individuals to a national outlook. These institutions were the private corporations which Americans used after 1790 to carry on their central activities of production. The book is in three parts. In the first part the social and economic development of the American colonies is considered. In New England, population growth led to the breakdown of community - and the migration of people to both the cities and the frontier. New England's merchants and professional tried to maintain community leadership in the context of capitalism and democracy and developed a remarkable dependence on private corporations and the eleemosynary trust, devices that enabled them to exert influence disproportionate to their numbers. Part two looks at the problem of order and authority after 1790. Tracing the role of such New England-influenced corporate institutions as colleges, religious bodies, professional societies, and businesses, Hall shows how their promoters sought to "civilize" the increasingly diverse and dispersed American people. With Jefferson's triumph in 1800, these institutions turned to new means of engineering consent, evangelical religion, moral reform, and education. The third part of this volume examines the fruition of these corporatist efforts. The author

looks at the Civil War as a problem in large-scale organization, and the pre- and post-war emergence of a national administrative elite and national institutions of business and culture. Hall concludes with an evaluation of the organizational components of nationality and a consideration of the precedent that the past sets for the creation of internationality.

Red, White, and Black: the Peoples of Early America Nov 30 2020 A history text of America's colonial period emphasizing the interaction of three cultures--colonialists, Indians, and blacks.

The Emergence of Rock and Roll Jul 27 2020 Rock and roll music evolved in the United States during the late 1940s and 1950s, as a combination of African American blues, country, pop, and gospel music produced a new musical genre. Even as it captured the ears of the nation, rock and roll was the subject of controversy and contention. The music intertwined with the social, political, and economic changes reshaping America and contributed to the rise of the youth culture that remains a potent cultural force today. A comprehensive understanding of post-World War II U.S. history would be incomplete without a basic knowledge of this cultural phenomenon and its widespread impact. In this short book, bolstered by primary source documents, Mitchell K. Hall explores the change in musical style represented by rock and roll, changes in technology and business practices, regional and racial implications of this new music, and the global influences of the music. The Emergence of Rock and Roll explains the huge influence that one cultural moment can have in the history of a nation.

Rethinking the American Anti-War Movement Feb 14 2022 Between 1965 and 1973, hundreds of thousands of ordinary Americans participated in one of the most remarkable and significant people's movements in American history. Through marches, rallies, draft resistance, teach-ins, civil disobedience, and non-violent demonstrations at both the national and local levels, Americans vehemently protested the country's involvement in the Vietnam War. *Rethinking the American Anti-War Movement* provides a short, accessible overview of this important social and political movement, highlighting key events and key figures, the movement's strengths and weaknesses, how it intersected with other social and political movements of the time, and its lasting effect on the country. The book is perfect for anyone wanting to obtain an introduction to the Anti-War movement of the twentieth century.

The Puritans Jun 25 2020 "Shedding critical new light on the diverse forms of Puritan belief and practice in England, Scotland, and New England, Hall provides a multifaceted account of a cultural movement that judged the Protestant reforms of Elizabeth's reign to be unfinished"-- Provided by publisher.

Prentice Hall United States History Dec 12 2021 Developed to meet the needs of modern United

States history courses. This text includes a review unit bridging early American history content before studying modern times. Authors Emma J. Lapsansky-Werner, Peter B. Levy, Randy Roberts, and Pulitzer Prize winner Alan Taylor inspire today's students by presenting our nation's history as a continuing drama. Their focus on enduring American issues help students understand why history matters. As part of their desire to reach out to every teacher in high school U.S. history classrooms, the authors have contributed their own personal insights about the content and teaching of each chapter. --Website.

Public Choice Analyses of American Economic History Apr 04 2021 This book - the second of two volumes- looks at episodes in American economic history from a public choice perspective. Each chapter discusses citizens, special interests, and government officials responding to economic incentives in both markets and politics. In doing so, the book provides fresh insights into important periods of American history, from the First Nationalist Movement of 1783 to the perpetual renewal of the Federal Reserve in 1927. This volume features the work of prominent economic historians such as Hugh Rockoff; well-known public choice scholars such as Joshua Hall and J.R. Clark; and younger scholars such as Marcus Witcher and Zachary Gocenour. This book will be useful for researchers and students interested in economics, history, political science, economic history, public choice, and political economy.
